

## Developing Skills for Success in Industry

*Pay special attention to the highlighted areas. These are for you to customize according to your specific needs.*

Hi Tuffy, I'm reaching out because I see you are a fellow Titan, and you work in [[ ADD INDUSTRY HERE ]]. I would love to learn more about your experience as I [[ADD YOUR GOAL HERE – prepare to graduate and find a job; consider an internship in your field; take the next step in my career; etc.]]. I would be so appreciative if we could talk for 20 – 30 minutes. Some of the questions on my mind are:

- Do you have any suggestions for courses or independent study to prepare for a career in this industry?
- What do you read to stay current with your industry?
- What else should I be doing to prepare for a career in this industry?
- How did your studies impact your growth path?
- Do you have any class suggestions?
- Do you have advice for picking a concentration that would help me find a focus in the industry?
- What else should I be learning to make myself more marketable?
- Do you have any recommended reading to learn more about your career?
- Would you share your resume with me as an example or review mine?

I hope to hear from you soon. However, I know folks are busy around this time of year, so I will follow up in 2 weeks to see if you're available.

Thank you in advance!
